PA 25W POE-DC

Power injector providing PoE+

Flexible power supply and installation

In applications where PoE (short for "Power over Ethernet") sourcing equipment is not available, the power injector PA 25W POE-DC offers a compact, convenient solution. It provides both power and data over a single Ethernet cable.

The PA 25W POE-DC is optimised for use with a series WS 300V station. Thanks to its compact size, it can easily be installed inside the surface mount box WSSH 50V or the flush mount box WSFB 50V.

Features and highlights

- Transmission bandwidth up to 1 Gbps
- Provides PoE and PoE+
- IEEE 802.3af/at compliant design
- Flexible power supply (24–48 VDC)
- Compact, space-saving housing
- Power status LED
- Simple plug-and-play installation

PA 25W POE-DC Technical specifications

Technical data PA 25W POE-DC

Data rate: 10/100/1000 Mbps Input: input voltage: 24−48 VDC (± 20%) max. input current: 1.9 A Output: max. output power: 30 W PoE output voltage: 57 VDC PoE standard: IEEE 802.3af/at PoE pin assignment: 4/5 (+), 7/8 (−) Status indicator: LED for input power Cabling: min. Cat. 5 Operating temperature range: −40 °C to +65 °C (−40 °F to +149 °F) Storage temperature range: −40 °C to +65 °C (−40 °F to +149 °F) Relative humidity: up to 95%, not condensing Dimensions (H x W x D): 130 x 34.5 x 20 mm (5.12 x 1.36 x 0.79 in) Weight: 80 g (0.18 lbs)		
Output: max. input current: 1.9 A Output: max. output power: 30 W PoE output voltage: 57 VDC PoE standard: IEEE 802.3af/at PoE pin assignment: 4/5 (+), 7/8 (-) Status indicator: LED for input power Cabling: min. 	Relative humidity:	up to 95%, not condensing
Weight: 80 g (0.18 lbs)	Dimensions (H x W x D):	130 x 34.5 x 20 mm (5.12 x 1.36 x 0.79 in)
	Weight:	80 g (0.18 lbs)

Line length in LAN

The maximum line length of Cat. 6 cabling in a LAN is 100 m (328 ft).

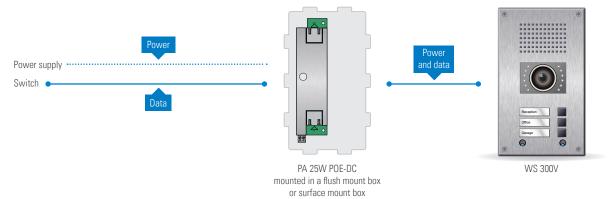

Extent of supply

- Power injector
- Screws for mounting (2 x Torx T10 self-tapping screws, 3 x 6 mm)
- Cat. 6 Ethernet cable (300 mm)
- Short reference

EMC compatibility

This is a Class A product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.

System overview

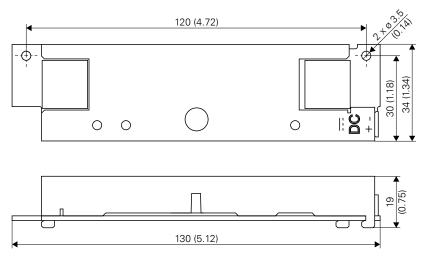

PA 25W POE-DC Installation instructions

Mounting instructions

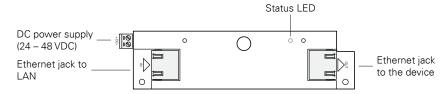

- This device shall be installed or replaced by trained and qualified personnel only.
- Only use recommended tools when installing the device.
- This device is designed to be used with a WS 300V. It shall be mounted within a surface or flush mount box where uninsulated conductors are not accessible
 to the user.
- The connected power supply shall fulfil the requirements for Safety Extra Low Voltage (SELV) and Limited Power Source (LPS) according to IEC/EN 60950-1.
- Use shielded Ethernet cables only.
- Before using the device, ensure all cables are correctly connected and not damaged.
- Disconnect the power supply cable for any maintenance of the device.
- Allow the device to cool down completely before touching it.
- Do not make any unauthorised modifications to the device.

Dimensions

Measuring units in mm (in), not to scale!

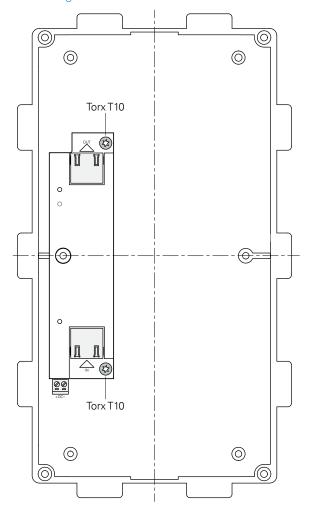

Connection diagram

Mounting within the surface mount box WSSH 50V or flush mount box WSFB 50V

NOTE: Mounting

The power injector must always be placed on the left side within a surface mount box or flush mount box.

Quality tested. Reliable. Smart.
