Intercom Station Protection

The US-BMT-ACMOD5 conduit extension is designed to house Commend's OD5 or *ID5 in either interior or exterior locations. It has ½" and ¾" conduit knockouts at the bottom and in the back and attaches directly to the required Commend OD5 SH surface mount box. The compact size and robust design provide extremely flexible protection for your investment. The housing is constructed of heavy duty powder coated steel. This provides a reliable and attractive housing for the Commend security substation, especially for installation at doors and entryways.

**Note: ID5 must be used with a OD5-SH backbox for proper installation*

Features and Highlights

- Compatible with Commend OD5 and *ID5 stations
- Surface mount
- Water resistant
- Durable in wide range of temperature and weather
- Powder coated steel
- IP65 Compliant
